GRAVEYARD WORKING

der our heartfelt thanks to Bradshaw | fourth Sunday in July,

Increase Payrolls \$15,000,000

N EPOCH making program of industrial development—the greatest in the history of Ala-

bama-is in full swing! Thirty-three new industries are building or are definitely assured for 23 communities in Alabama -from Tennessee down to the Gulf, from Georgia to the Mississippi line. These plants were secured for Alabama through co-ordinated efforts of civic bodies, patriotic individuals and the New Industries Division of the Alabama Power Company.

Employ 17,500 Workers

These thirty-three new plants will employ 17,500 workers. Their yearly payrolls will amount to \$15,000,000. Their capital investment will be \$35,-

■ Fifteen different products—many of them never made before
in Alabama, will be manufactured. Included in the list are Kraft paper and bags, silk cloth, fine cotton and rayon goods, woolen underwear and sweaters, fuller's earth, copper wire, and furniture.

The coming of these plants, most of them to small communi-ties, will usher in a period of prosperity which many sections of the state have never known before.

A New Market for Farm Produce They will afford employment to farm workers during dull summer months after crops have been laid by. In distrib-

uting their payrolls-\$250,000 to \$500,000 annually in towns of 1,500 to 5,000-they will double or treble the income of communities in which they locate. They will create a market for farm produce right at home. One creamery alone will buy a million dollars worth of

cream a year from nearby farms-a sum equal in value to the average county's cotton crop. One new paper mill will provide a market for 100,000 cords of pine wood annually, making timber a cash crop for the farmer. Power Paves Way for Progress

(But these new plants are only the vanguard. The New Industries Division of the Alabama Power Company is now bringing an average of 8 parties of visiting industrialists a week through the State. It is in touch with more interested prospects than at any other time.

Throughout the State, power is blazing the way for progress.

Many Alabama villages of yesterday—towns today—will be
